HYPATIA analytics

CORE COMPETENCIES

- **Artificial Intelligence**
- **Natural Language Processing**
- **Distributed Simulation & Learning**

OVERVIEW

Hypatia Analytics is a Maryland-based data analytics company with extensive expertise in artificial intelligence, big data, training, and implementation. As a women-owned small business, we bring a unique perspective and fresh approach to every project. Our passionate and accomplished team of engineers, mathematicians, and data scientists have been building algorithms since 2003. Our experience designing intelligent systems in different industries gives us the flexibility to deliver innovative solutions.

DIFFERENTIATORS

- Our cutting-edge technology empowers clients through effortless analysis and transformation of legacy data into valuable insights.
- Our semantic analysis ensures accurate understanding of various types of feedback, chats, and surveys, enabling and guiding smarter decision-making.
- We have created and deployed hundreds of eLearning courses and micro-learning elements on a wide range of topics.

HIGHLIGHTED PAST PERFORMANCES

- Developed, field-tested, and deployed an open-source learning analytics dashboard for use in multinational training exercises.
- Designed and built eLearning content for a variety of organizations, including the Norwegian Defence International Centre (NODEFIC), OSD ADL initiative, and National Defense University of Ukraine.
